

## Meeting Notification

Date: Wednesday 17<sup>th</sup> February 2010  
Venue: Tilsworth Golf Club, Dunstable  
Time: 8:00pm prompt

## Guest Speaker

*Three Counties Advanced Drivers presents....*

**Hamish Keith**, Road Safety Technology Manager, London Road Safety Unit, Transport for London (TfL)

We are delighted to welcome Hamish Keith, who is the Road Safety Technology Manager, London Road Safety Unit, Transport for London.

## Background

He moved to London from New Zealand in 2000, and worked as head of the Transport Technical Support Services at the London Borough of Ealing. One of the major projects he was involved in included the development of a handheld solution to monitor the effectiveness of Green Travel Plans within the borough.

Keith joined Transport for London in 2004. His role was principally to manage the "ACCSTATS" collision database. His role has recently been expanded to cover the development of an Intelligent Speed Adaptation (ISA) trial for London. He has a strong personal interest in intelligent transport applications and in realising the benefits that technology can bring to this area.

Keiths' role and knowledge of Road Safety technology takes him all over the World. He recently presented at the Intelligent Transport Systems world congress in Stockholm. Hamish spoke about LRSU's work on Intelligent Speed Adaptation, a subject we look forward to Keith talking to T-CAD about.
